SINFOSYS eSCHOOL
YOUR SCHOOL MANAGEMENT SYSTEM

ABOUT THE SYSTEM

Our School Management System (SMS) is a secure, user-friendly, and fully integrated platform designed to streamline the academic and administrative processes of schools. Whether you're managing one branch or multiple campuses, this software helps you handle everything in one place — saving time, reducing errors, and improving communication.

WHY CHOOSE OUR SCHOOL MANAGEMENT SYSTEM?

Modern schools need modern solutions. Our comprehensive system offers a centralized platform to manage all administrative, academic, and operational functions with ease and efficiency.

📊 Visual Reporting: Level vs Student

A dynamic chart showing student population per level — helping administrators quickly identify trends and plan capacity or resources accordingly.

KEY HIGHLIGHTS

🎓 Students Management
Manage admissions, profiles, promotions, attendance & more.

📅 Class & Level Management
Organize academic levels and monitor student performance.

📅 Academic Calendar
Public holidays, school terms, and semester breaks clearly defined and managed.

📊 Live Dashboard & Reports
Real-time data on students, teachers, users, and levels. Visualize student distribution with graphs.
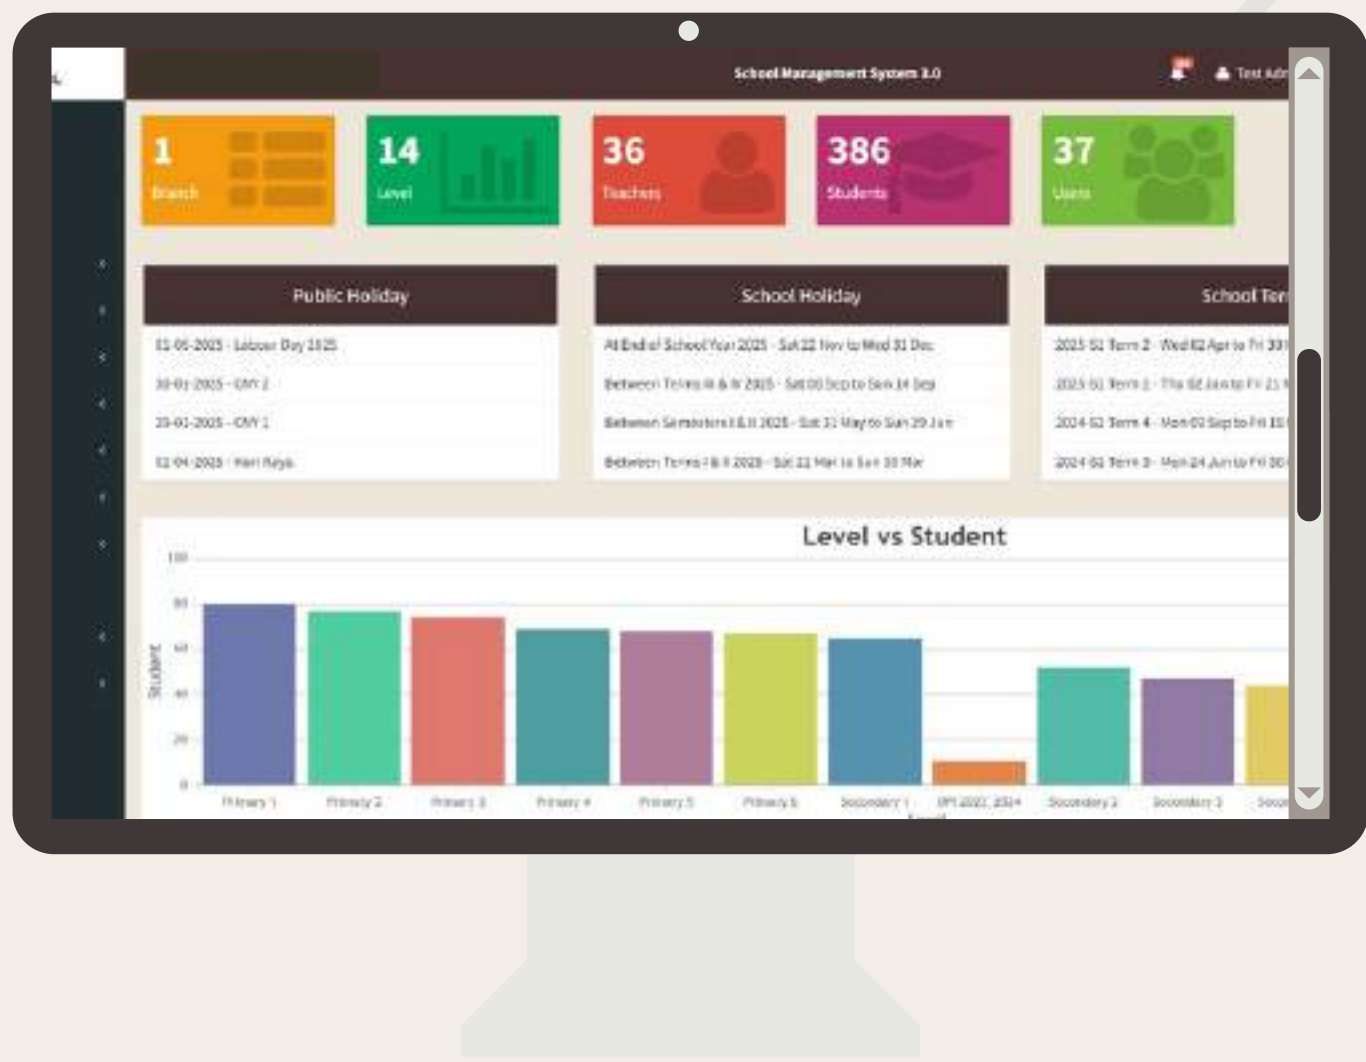

🚩 Communication Tools
Notify parents, students, and staff via integrated communication channels.
